

CURRICULUM VITA

THEODORE A. FEITSHANS

EDUCATION

GEORGETOWN UNIVERSITY LAW CENTER, J.D., *CUM LAUDE*, 1986.

Honors: Dean's List; selected as Fellow for 1982 Beaudry moot court competition. Selected as participant in the Roscoe Pound-ATLA Trial Advocacy clinic.

NORTHERN VIRGINIA COMMUNITY COLLEGE, nondegree in statistics, summer, 1984.

UNIVERSITY OF MINNESOTA, M.S. in agricultural and applied economics, 1980.

Honors: Department's best M.S. thesis of 1980; awarded research assistantship, 1978-80.

CORNELL UNIVERSITY, B.S., 1978 in general animal science.

Honors: Graduated with Honors and Distinction.

EXPERIENCE

1/95 to present

Title: Lecturer/Extension Specialist in Agricultural and Environmental Law

North Carolina State University, Department of Agricultural and Resource Economics, Raleigh, North Carolina

Teaching

Courses taught include Agricultural Law (ARE 306) and Environmental Law and Economic Policy (ARE 309). Student evaluations have consistently among the highest in the Department. Class size has more than doubled in ARE 306 and more than tripled in ARE 309 since 1995. Since the spring of 1997, ARE 309 has been on the World Wide Web. The site was upgraded and taught as a distance education course during the spring and fall 1999, and spring 2000, 2001, 2002, and 2003 semesters. The URL is <<http://www.cals.ncsu.edu/course/are309/>>. The web site for ARE 306 was developed as part of Project 25, an experiment sponsored by the Office of the Provost. The purpose of the experiment was to demonstrate the feasibility of teaching courses entirely on the Web. The web-based version of ARE 306 was created for the Fall 1997 semester. The site was again used for a distance education version of the course in the spring semester 1999. The URL is <<http://courses.ncsu.edu/ARE306/>>.

CURRICULUM VITA THEODORE A. FEITSHANS

Serve as Chair of the Department's Undergraduate Curriculum Committee. Accomplishments include participation in the Department's recent CSREES review and leading the Department's planning for distance education courses and degrees.

Extension

Developed a dynamic and vital Extension education program in environmental and agricultural law. Perform a critical role by providing information on legal issues to other members of the Department, members of the General Assembly, Extension Administration, Extension agents, and farmers and other Extension clientele. Developed, in conjunction with other campus faculty, an active program of Extension presentations and publications to provide legal information to a wide variety of audiences on environmental, agricultural, and intellectual property issues. Land preservation, estate planning and taxation and liability avoidance are the three most popular programs. Both the land preservation and the liability avoidance programs are a new programs developed over the last several years. In addition to numerous presentations of the liability avoidance program in-state to Extension agents, agronomists, farmers and others, the liability avoidance program has been presented at national conferences to participants in the poultry and egg industry and to participants in the pesticide application and management industry. The estate planning program has been presented to numerous county agribusiness and farmer audiences. In-service training on developing estate planning programs has been presented to Extension agents. Additional presentation topics include legal considerations in marketing farm products, forms of business organization, labor, and intellectual property. Many Extension publications related to these programs are now available through the World Wide Web. The *Land Preservation Notebook* is available on the web at <http://www.cals.ncsu.edu/wq/lpn/>.

12/92 to 12/94

Title: Project Coordinator

Socially Disadvantaged Audience Project, Cooperative Extension Program, Fort Valley State College, Fort Valley, Georgia

Coordinated and assisted four agents in the field with their efforts to identify and provide training and assistance to approximately one hundred and ten small Georgia farm owners described as socially disadvantaged, who were current or prospective Farmers Home Administration (FmHA) borrowers. Duties included reviewing farm plans for economic and legal sufficiency, counseling distressed farm families on sources of financial assistance, providing assistance to negotiations between farmers and their lenders and other creditors, and adapting computer technology to increase the productivity of field agents. I trained each of the field agents on the use of the their laptop computers and the financial management software provided to them.

9/92 to 11/92

Title: Laboratory Specialist

Harry S. Truman High School, Bronx, New York

Prepared laboratories and other educational aides for high school science classes. Managed the laboratory and supervised the special projects of individual students.

CURRICULUM VITA THEODORE A. FEITSHANS

3/91 to 6/91

Title: Science Teacher

Frank D. Whalen Middle School, Bronx, New York

Taught ninth grade science. Prepared Hazard Communication inventory for the school laboratories. Participant in preparing students for the RCT examination.

9/90 to 2/91

Title: Science Teacher

Christopher Columbus High School, Bronx, New York

Taught four classes of ninth grade science and one class of eleventh grade chemistry.

6/90 to 8/90

Title: Law Clerk

Ellen Zindler, Esq., New York, New York

Prepared motion papers for bankruptcy litigation. Researched case law.

8/87 to 3/90

Title: Extension Specialist/Assistant Professor

North Carolina State University, Department of Economics and Business, Raleigh, North Carolina

Developed programming in agricultural law and economics. Organized, promoted and presented seminars on legal topics including estate planning, living wills, forms of business organization, debtor-creditor relations, bankruptcy, personal income taxation, workplace and employment regulation, environmental regulation and compliance, OSHA, contracting, collections and intellectual property. These seminars and training sessions were presented to a wide variety of audiences including Extension agents, farmers, business owners, families, and others. Developed comprehensive business plans, using a PC-based program, for financially distressed farm businesses. These plans were presented by the business owners to lenders, creditors and courts in support of business restructuring proposals. Worked closely with family resource management specialists to develop solutions for families of farmers in financial distress. Worked with a multidisciplinary team to advise local communities about risk management, environmental compliance and Community Right-to-Know. Research areas included electronic retrieval of legal and technological information, the impact and effectiveness of Chapter 12 of the U.S. Bankruptcy Code, intergenerational transfers of family businesses, the regulation of groundwater quality, environmental compliance, and the legal structure of waste water management authorities.

4/85 to 7/87

Title: Economist

U.S. Department of Commerce, Patent and Trademark Office, Office of Automation, Washington, D.C.

Supervised a multidisciplinary team charged with evaluating the new Automated Patent System in a production environment. The evaluation process included defining user needs, planning evaluation activities, developing experiments involving advanced statistical techniques to test system capabilities, and reporting results. Duties included designing and conducting statistical analysis using SPSS. I also

CURRICULUM VITA THEODORE A. FEITSHANS

prepared analyses of the benefits/costs of automation for the Commissioner and other officials. I participated in cooperative information exchanges with the Japanese and European Patent Offices on patent and trademark issues.

5/84 to 4/85

Title: Economist/Policy Analyst

U.S. Department of Commerce, Patent and Trademark Office, Office of Technology Assessment and Forecast, Washington, D.C.

Provided analyses to the Commissioner of the U.S. Patent and Trademark Office concerning the relationship between the patent system and industrial competitiveness and trade. Provided comparative assessments of U.S. and foreign technological activity. Participated in cooperative information exchanges with the Japanese Patent Office and the European Patent Office on the use and value of patents. Project Officer for automating the library of the Office of Technology Assessment and Forecast. This project entailed placing bibliographic information on the Office's collection of intellectual property, industrial competitiveness and trade literature in a computerized retrieval system.

Served as Acting Director of the Office of Technology Assessment and Forecast during the absence of the Director.

10/80 to 5/84

Title: Agricultural Economist

U.S. Department of Agriculture, ASCS, Regulatory Impact, Conservation, and Program Evaluation Staff, Washington, D.C.

Attended Congressional hearings as advisor to the Deputy Administrator for Program Planning and Development. Prepared testimony for the Administrator and the Deputy Administrator.

Member of the Task Force on Emergency Preparedness; responsible for planning adequate food supplies in the event of a natural or man-made disaster. Advisor to the Chairman of the Grain Elevator Task Force Working Group. Prepared analyses of pending legislation regarding grain elevator bankruptcies. Identified and analyzed grain elevator bankruptcy issues for the Deputy Administrator.

Projected grain storage needs for the Administrator. Estimated program costs for the farm storage facility loan program and made recommendations for operating the program in a more efficient manner. Reviewed and edited regulatory impact analyses prepared by program specialists. Advised specialists on the preparation of proposed and final rules. Prepared and coordinated the Agency's regulatory agenda for the conservation and commodity support programs.

Served as the ASCS representative to the review board for the Agricultural Outlook.

Served as liaison with the USDA Office of General Counsel and with operations offices.

5/80 to 10/80

Title: Agricultural Economist

U.S. Department of Agriculture, ESCS, National Economics Division
Washington, D.C.

Economics editor of the Agricultural Outlook, a monthly publication. Researched and wrote original articles for the publication. Prepared economic forecasts.

7/78 to 5/80

Title: Graduate Research Assistant

University of Minnesota, Department of Agricultural and Applied Economics, St.Paul, Minnesota

I built a dairy cattle feeding model as part of a whole dairy farm planning model. I employed linear programming techniques; the project was the basis of my masters thesis.

My educational program emphasized production economics and policy analysis. Work in production economics included microeconomic theory, static production theory, dynamic production theory, and the application of production economics to practical farm management problems, including those of sustainable agriculture. The policy component of the program included a study of U.S. agricultural policy, macroeconomics, sustainable agriculture, international trade and commercial policy. In addition the program had a strong statistical orientation, with a working knowledge of categorical data analysis and multivariate regression analysis emphasized. Computer methods, including the use of linear programming packages, statistics packages, financial analysis packages, and microcomputers, were emphasized. I instructed students and staff on microcomputer use.

ACADEMIC AND PROFESSIONAL HONORS

2001 NCACES Extension Education Award

1999 NCACES Extension Education Award

1998 NCACES Extension Education Award

Federal Service Award - 10 years, 1995

U.S. Patent & Trademark Office, Special Achievement Awards, 1984, 1985, 1986.

Georgetown University Law Center, graduated cum laude, 1986

Selected as participant in the Roscoe Pound-ATLA Trial Advocacy Clinic, 1985.

Selected as fellow for the Beaudry moot court competition, 1982.

University of Minnesota, awarded research assistantship, 1978-80.

M.S. thesis selected as Department's best, 1980.

Cornell University, graduated with Honors and Distinction, 1978.

SERVICE

Faculty Advisor to Campus Toastmasters

Faculty Advisor to the Aikido Club at NC State

GRANTS AND CONTRACTS

"Land Preservation Techniques Education Project", USDA Renewable Resource Extension Act funds, May 2003 - September 2003, lead investigator - T. Feitshans, \$17,349, print copies of second edition of the **Land Preservation Notebook**.

"General Agricultural Issues for the CSREES/EPA National Agricultural Compliance Assistance Center Program", Cooperative Agreement with EPA, September/October 1998 - September/October 2003, lead investigator for N.C. State - Jean Spooner, many co-investigators, funds allocated to legal/regulatory issues - about \$35,000.

"Upper Cape Fear Education Project", N.C. Department of Environment and Natural Resources, 7/1/99 - 6/30/00, lead investigator - Jean Spooner, many co-investigators, served on steering committee to develop a workshop for those interested in protecting and improving urban water quality in the upper Cape Fear basin; salary release - about \$2,500.

"Impact of County Zoning Swine Farms", USDA Community and Rural Development Funds, February 1999 - September 1999, lead investigator - T. Feitshans, \$2,500, print copies of **Swine Farm Zoning Notebook**.

"Land Preservation Techniques Education Project", USDA Renewable Resource Extension Act funds, February 1999 - September 1999, lead investigator - T. Feitshans, \$3,500, print copies of **Land Preservation Notebook**.

CURRICULUM VITA THEODORE A. FEITSHANS

"Land Preservation Techniques Education Project" USDA Renewable Resource Extension Act funds, February 1998 - September 1998, lead investigator - T. Feitshans, \$9,410, develop educational resources on land preservation.

"Impacts of County Zoning of Swine Farms", USDA Community and Rural Development Funds, February 1998 - September 1998, lead investigator - T. Feitshans, \$9,410, develop educational materials on North Carolina's new law that permits county zoning of large swine farms.
